Our Mission

Provide genetics and services that help cattle producers attain more freedom and profitability in their business and life.

Our Vision

Indreland Ranch is holistically managed and operated to produce healthy nutrition and environment for people, livestock and wildlife. This is accomplished by resilience to economic and environmental factors and by providing opportunities and profit to all involved. It is managed and operated by a team of motivated, goal oriented and open minded individuals that work together in a respectful manner.

About

INDRELAND ANGUS

Our mission is to provide genetics and services that help cattle producers attain more freedom and profitability in their business and life.

Indreland Angus originated in 1977. That makes forty-six years in the registered Angus business. Our production philosophy is that cows must consistently excel at converting our basic grass resource to beef. Practicing this philosophy has refined our cowherd into trouble free and productive cattle. We do not select for any extremes in performance but demand functionality in our cattle. We do practice line breeding and strive to produce as many ½ and ¾ blood calves as possible. All the bulls have been DNA tested to identify the sire. We have included individual cow weights for your information. Ultrasound scan carcass data on the sale bulls is also included at the back of the catalog. Foot scores, updated weights and Sensitivity Scores will be available on our website and at our open house/sale day.

	Wt.	Ht.	BCS
Yearling heifers	740	46.6	5
2 year old cows	792	45	4.4
3 year old cows	800	47.5	4.5
4 years & older cows	1003	49.3	4.5

The bulls have been on hay and grass since weaning at the end of January. They also had 1-2# of 14% cake until greenup. These bulls have never had their feet trimmed. Our objective with this bull development program is: "What you see is what you get." These bulls should maintain themselves and keep gaining at your place until they mature. You can be confident that these bulls will get the job done and not need much maintenance.

Welcome to Indreland Angus,

Thank you for taking the time to look over our catalog. A special thank you to our loyal customers. Please consider this your personal invitation to any and all of our upcoming sale events!

We have had a great year in 2023 from a precipitation and temperature perspective – there were a limited amount of really hot days. Our cattle and our soil health responded well to these favorable conditions. The breedup on our cattle was better than normal, allowing us to offer bred females for sale this year. Forage growth was also better than normal. Leaving cover and giving adequate rest to pastures has paid dividends for our ranch. That being said, there still are challenges. In our previous catalog letter, we have talked about livestock that require a lot of iron, diesel and labor are at a disadvantage. This is very apparent today as we experience inflation and high interest rates. Now more than ever, even with record high cattle prices, it's imperative to get costs under control.

We are going into winter with a 10 month inventory of stockpiled forage which will either be used by cattle or provide cover. While this stockpiled forage serves as an economical resource, it also mitigates heat and dry conditions that will inevitably come next summer.

Seek out and buy cattle that will pass on some of the cost saving traits to their progeny, things like longevity, fertility, do-ability and \$EN. These are the things that are bred into and doubled up in Indreland cattle through years of pressure and selection. It is for these reasons that we are proud of our cattle and what they can bring to the table for us and our customers, now and into the future.

Again, welcome and thank you for your interest. Please call, text, or stop in anytime!

All the best,
The Indreland Family

SALE INFORMATION

ON-LINE SALE FORMAT: Individual videos of the bulls and group videos of the females are available for viewing on www.IndrelandRanch.com or www.frontierlivesale.com. Being a December sale, it is possible to have a nasty storm around sale day, therefore we give people the option of viewing the bulls and bidding online as well as an open house the weekend before the sale. The open house will start on Saturday, December 2nd through sale time on Monday, December 4th. The sale will be an online sale, without a live auctioneer, but bids will be taken from the crowd. It is much like a regular sale, but much lower key. At 1 pm on December 4th, the lots will start closing in order starting with the registered bred heifers, then the bred cows, then the commercial bred heifers followed by the bulls. Each lot will be given a minimum of 15 seconds and will continue until there is no competitive bidding.

There will be several options to bid:

- You can come to the ranch on sale day, December 4th, look at the bulls/females in the morning, have lunch and bid on site – much like most auctions.
- You can be on your computer and bid as the lots close starting at 1 pm on December 4th. NOTE: if your internet connection is marginal, please call ahead of time of sale time so we can try to help or make arrangements for someone to be on the phone with you.
- You can call any of the representatives listed on page 3 and they will get the bids placed for you.
- You can come look at the bulls/females during the open house, December 2nd – 4th. You can then place a proxy bid online, indicating the maximum you would pay for the bull/heifer/cow. No person, including us, will know what that number is. When that lot comes up, if there is competitive bidding, the computer will bid for you up to that amount. For example, you want to bid on 3 lots but can't attend or be at a computer, or your internet service is marginal. You can place a proxy bid ahead of time on those 3 lots. No one knows what your proxy bid is. If your proxy bid is \$4750 and the starting price is \$4000. With no online or onsite bids, you will buy the lot at \$4000. If there are online or onsite bids, the system will bid on your behalf up to (but not more than) your proxy bid. Just know that nothing beats a proxy bid – your bid WILL be first!

This is a secure and convenient method to buy your bulls or females. Proxy bidding is an easy way around a poor internet connection. Please consider coming to look at the bulls/females ahead of time, go home, register/log in and bid with confidence!

This sale is not a standard format, both proxy bidding before the sale date, and live bidding will be available, but there will be no auctioneer.

This sale will be broadcast live over the internet via Frontier Live Sale. The sale will begin with the ability to place proxy bids now through December 4th. On December 4th at 1:00 p.m., we will go through the lots in catalog order, on-site and online bidders will have the opportunity to place bids, when the bidding ceases, the lot will be sold to the high bidder. Proxy bids will directly compete with on-site, and online bidders. Duration will be a minimum of 15 seconds per lot.

To place bids, you must PRE-REGISTER, go to the Indreland Angus Ranch Sale page at www.frontierlivesale.com and click "Register/Login to Sale". You must have an account with Frontier Live sale, and you must then register for this auction. Registrations do not carry over from sale to sale.

For those who wish to simply view the sale without registering, login with your Facebook, or Google account. If you don't have a Facebook or Google account, a guest login will be provided.

Instructions for watching the sale can be found at www.frontierlivesale.com

We encourage you to register early to avoid any problems and make sure you are set up to view the sale. Visit www.frontierlivesale.com for all the details!

BULL PREVIEW: December 2 - 4, lunch will be available all three days.

ON-LINE SALE: December 4, 1:00 p.m. (MST) Lots start closing in catalog order. Females sell first.

LOCATION: Indreland Ranch - 12 1/4 miles north of Big Timber on Hwy 191 N, then east on Glasston Road for 1.7 miles

ANNOUNCEMENTS: Announcements made sale day take precedence over any printed materials.

LEASE BULL: Many of the bulls were leased for the breeding season. Upon return, they were quarantined for three weeks and successfully completed testing as outlined in our herd health info below.

HEIFER BULL: These bulls have met our criteria to be used on heifers: Birthweight less than 80 lbs. and BW EPD less than +1.5 and any other knowledge of the pedigree, etc. on the bull. **80% of the bulls in the sale meet our criteria as a HEIFER BULL.**

DELIVERY: Bulls will be delivered by the end of December. Free delivery in Montana. Out of state deliveries at cost. Your cooperation in taking delivery is greatly appreciated.

WINTERING: Arrangements can be made to keep bulls past December 31 at \$3 per head per day.

GUARANTEE: Bulls are fully guaranteed. If for any reason you are unhappy, we request the opportunity to solve the problem. Replacement bulls of like quality will be provided at no charge in the case of a dead or injured bull that is unable to finish the first breeding season. Credit can also be given.

RETAINED INTEREST: We are retaining 1/3 revenue sharing interest on all sales of semen of each bull listed in this catalog unless otherwise noted. Possession and all other interests, including salvage value, belong to the owner.

HERD HEALTH INFO:

We take our herd health very seriously. Katie Rein, DVM, has guided us through our herd health protocol and developed our biosecurity measures.

The bulls for sale have been vaccinated as calves with Inforce 3, Bovishield Gold BVD and Ultrabac 7 Somubac. They received a booster of similar vaccines to prevent respiratory disease. They were vaccinated with Virashield 6 VL5 HB during their breeding soundness examination in October.

Indreland Angus Ranch continues to lease out yearling bulls. These bulls will be offered for sale on December 4th. These bulls were diligently quarantined upon return to the ranch. Additionally, all these bulls went through a rigorous testing protocol and tested negative for trichomoniasis, Johnes, brucellosis, anaplasmosis and bovine leukosis virus. Please contact our veterinarian, Katie Rein, DVM, at 406-350-0342 with any questions.

NEW THIS YEAR!

Sunday, December 3

Join us for these educational opportunities!"

1 -3 pm Nathan & Jenni Anderson with Anderson Livestock Services will do a low stress livestock handling demonstration at the bull pens.

4 pm Join us at our house (sale ring) for an evening with Dave Pratt, former owner of Ranching for Profit, for words of wisdom from Dave and time to socialize!

Stockmanship at Indreland Ranch

In addition to our year-round efforts to use good stockmanship with all our cattle, Anderson Livestock Services (Nathan & Jennie Anderson) of Melville, worked horseback and on foot with our bulls last year using their low stress stockmanship skills. Nathan assigned each bull a Sensitivity Score as he loaded them in a stock trailer. He showed the bulls that the trailer is a good place to be. In November, Nathan will work with the sale bulls again this year and assign them a Sensitivity Score. We noticed a big difference in how the bulls loaded when we delivered bulls last year – they just hopped in the trailer. We are excited to work with Nathan and Jennie to offer bulls that have learned to load under a low stress environment. The Sensitivity Scores will be available on our website and at our open house/sale day. Nathan will be doing a low stress livestock handling demonstration at 1 pm on Sunday at our bull lots and will be around sale day to answer questions, or give him a call at 406-930-2163 or visit www.AndersonLivestockServices.com

Dave Pratt

We are excited to welcome **Dave Pratt** to our place on Sunday, December 3rd, to share his thoughts and ideas on ranching in these times of high inflation, high interest rates and record high cattle prices! Please join us at 4 pm for Dave's talk with a social following to chat with him and others!

Dave is the CEO Emeritus of **Ranch Management Consultants** and is one of the most well-respected authorities on ranching in sync with nature.

Lincoln and Erin Burggraff joined our team on May 1 this year. They moved here from southeastern South Dakota. Lincoln manages the cowherd and forage and Erin helps with our social media and any other way she can! We appreciate their efforts and commitment to our operation.

Thank you to our 2023 apprentices, Adison Thorp and Lydia Blinn, for all their hard work!

INDRELAND ANGUS BRED FEMALES

- All bred females offered by Indreland Angus are home raised.
- Add \$100 to bid price for transfer of registration papers.
- Heifers bred to Indreland Angus calving ease bulls.

What is \$EN?

The American Angus Association's definition: "A cow energy value (\$EN) is available to assess differences in cow energy requirements, expressed in dollars per cow per year, as an expected dollar savings difference in future daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses.) Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated in differences in mature cow size."

Indreland Angus \$EN

According to the 2023 Sire Evaluation Report, the average for \$EN in the Angus breed for non-parent bulls is -14. Our average \$EN for our registered sale bulls is +22. With the rising cost of feed, we think the \$EN number really should be evaluated and, in our opinion, is the first step to low input production. In this case, *the difference of \$36.00 is a cost savings on EVERY animal in your herd, PER YEAR.*

Sire of 10 bulls for sale.

Dam Prod - 4 BR 91, 4 WR 92, 3 YR 97
GDam Prod - 6 BR 93, 6 WR 102, 4 YR 103

*"4666" is a
Breeding Machine!*

- As a yearling, he sired 10 calves against older bulls on yearling heifers.
- As a 2 year old, he sired 43 calves on cows in a competitive breeding group.
- As a 3 year old, he sired 25 calves on yearlings against older bulls.
- As a 4 year old, he sired 77 calves on cows in a competitive breeding group.
- As a 5 year old, he sired 75 calves on cows in a competitive breeding group.
- As a 6 year old, he sired 75 calves on cows in a competitive breeding group after producing 966 straws of semen prior to turnout.
- As a 7 year old, he sired 41 calves and probably more as we sold a number of cows that had been exposed to him.
- As an 8 year old, he sired 33 calves in a competitive breeding group.
- As a 9 year old this year, he was turned out again in a competitive breeding group!
- Total of 379 Calves sire to date with an average birthweight of 72, weaning ratio of 99, yearling ratio of 100.
- 10 sons are in the sale.
- Dam ave weight: 941, Granddam ave. weight: 1105

**That's prepotency being passed on like nature intended. We're glad to bring his daughters into the herd!
Semen for sale from us.**

 Course.

INDRELAND ANGUS BULL SCAN DATA Clay Nash, Technician

Beef Image Analysis (BIA) live animal carcass ultrasound is an automated chuteside software system that captures images and calculates trait measurements on an objective basis. The traits determined by BIA ultrasound software are: Ribeye Area (REA), Backfat Thickness (BF), Ribeye Area/Hundred lbs Live Weight (REA/CWT), Percent Intramuscular Fat (% IMF), Ribeye Shape Score (RES), Stress Score (SS), and Tenderness Score (TEND).

RES = Ribeye Shape Score.

Indicative of desired shape of the ribeye muscle. Correlated to eventual Yield Grade, Cutability and % Retail Product. Score ranges from 0.0 to 1.0.

Acceptable score is 0.35 or greater in yearling bulls, with an ideal score being 0.45 or better.

Ideal score in heifers is 0.35 or better, with acceptable scores of 0.30 or better.

SS = Stress Score.

Correlated to immune system strength of calf. Score ranges from 10-50.

10=No Stress, 20=Slight Stress, 30=Slightly Moderate Stress, 40=Moderate Stress, 50=Severe Stress.

Impacts DTF, ADG, WDA, TCOG, Health Costs, QG, and YG.

Ideal score is 20 or less.

TEND = Tenderness Score.

Correlated to actual Warner-Bratzler Shear Force (WB) in carcass ribeye steak at 12th rib location.

Correlation Coefficients between WB and TEND currently average 0.85 – 0.87.

Score ranges from 10-50. 10=Very Tender, 20=Tender, 30=Slightly Tender, 40=Slightly Tough, 50=Tough.

Acceptable score in yearling bulls is 28 or less. Ideal score is 25 or less.

% IMF = Percent Intramuscular Fat (Marbling).

.28 - 2.57 % IMF = USDA QG Standard (Practically Devoid of Marbling)

2.58 - 3.89 % IMF = USDA QG Select (Slight Marbling)

3.90 - 5.33 % IMF = USDA QG Choice- (Small Marbling)

5.34 - 8.55 % IMF = USDA QG Choice+ (Modest/Moderate Marbling)

8.55+ % IMF = USDA QG Prime (Abundant Marbling)
